

Installation Guide for the EduControl Software

The EduControl computer program is designed to operate with educational equipment manufactured by SPUTNIX LLC.

The Software distribution package can be downloaded from:

<https://edu.sputnix.ru/en/docs/junix/edu-control/download>

Minimum System Requirements	
Operating System:	Windows 7 /8 /10
Architecture:	x64
Processor:	1 GHz or higher
RAM:	2 GB or more
Free Disk Space:	100 MB

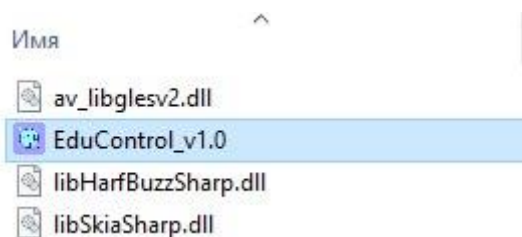

To launch the Software, follow these steps:

Step 1

Locate the downloaded archive "EduControl_v1.0.zip" and extract its contents to a convenient folder.

Step 2

Open the "EduControl_v1.0" folder and run the "EduControl_v1.0.exe" application.

The Software is now ready for use. If you encounter any issues, please contact us at technical.support@sputnix.ru and provide a detailed description of your problem.
